eFax®: Send and Receive Faxes by Email

Faxing with eFax® is easy and saves you time and money. You will receive a dedicated fax number that enables you to send and receive faxes by email or your online account using your computer, tablet or mobile. If you already have a fax machine, you can eliminate the unnecessary expense of a separate faxline, fax machine and fax supplies.

Benefits – Cheaper, Faster & More Private

eFax® can help you drive efficiency, increase privacy, lower costs and reduce administration.

- | | |
|--|---|
| <p>✓ No Fax Machine
Imagine how much time you'll save over having to print, sign and then scan in the same fax machine again.</p> | <p>✓ No Contract
No contract, obligation or risk – if you choose a monthly subscription you can cancel anytime.</p> |
| <p>✓ No Consumables
You'll never have to deal with toner, an additional fax line, paper, or maintenance on your fax machine again.</p> | <p>✓ Private
Keep your confidential faxes from sitting on a communal fax for anyone to see. Faxes are sent directly to your email inbox.</p> |
| <p>✓ No Software to Install
No need to install software as you can use your browser, email or mobile app. With eFax, you can fax from anywhere – anytime.</p> | <p>✓ More Dependable
eFax® the most trusted name in online faxing, with more than 11 million subscribers worldwide.</p> |
| <p>✓ Save on International Rates
Send faxes internationally at a fraction of the cost of a field fax line.</p> | <p>✓ Free Trial
You'll receive a 30-day free trial with no contract and no obligation.</p> |

How to Send a Fax by Email

eFax makes internet faxing as easy as sending an email

- Open a new email message, type the fax number followed by @efax.com into the "To:" field.
- Attach your fax document, and type a message – which eFax will turn into a cover sheet. Hit Send.
- That's it! Your recipient receives your document and cover letter exactly as they would a normal fax.

How to Receive a Fax by Email

eFax makes receiving faxes as easy as email

- Sender faxes to you number.
- The faxes then delivered to your email.
- You can then read, forward or save the email.
